

DRIVING **INNOVATION** AND CREATING **IMPACT**

— ABOUT US

We are a Design + Tech agency dedicated to bringing unique ideas to life. Specializing in human-centric design, intuitive navigation, coding, and immersive AR experiences, we blend conventional and agile methodologies to fuel creativity and innovation. With clear ambitions, we operate across both design and development landscapes, transforming concepts into impactful digital solutions.

01

OUR IDENTITY

Arca 9 is a multidisciplinary creative studio that redefines brands and experiences. We're an unusual bunch of strategists, designers, and tech enthusiasts, sparked by the power of meaningful and purposeful design.

02

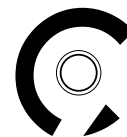

OUR MISSION

To create impactful, functional, technology-forward work that elevates and unifies experiences across all brand surfaces.

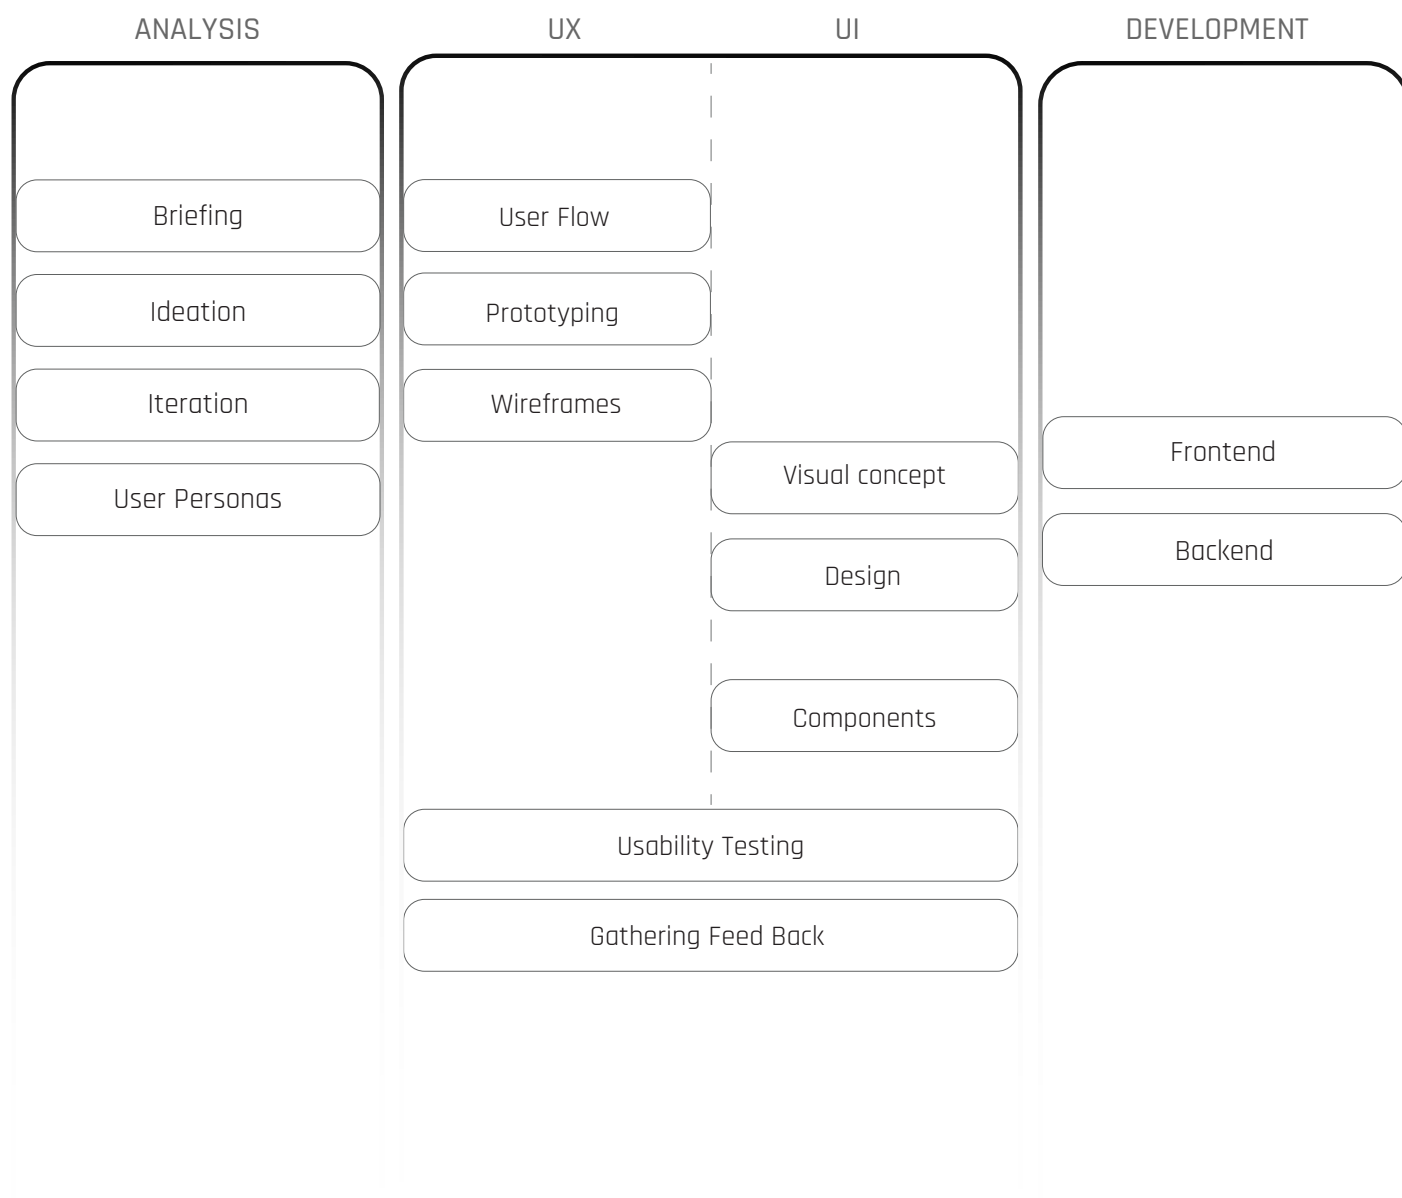

03

OUR VISION

To design impactful user experiences that empower people and organizations, helping them connect with emerging technologies while co-creating innovative, engaging products that deliver lasting impact.

HOW DO WE WORK

To begin with the development of a concept iteration or vision for your digital product by putting our users needs first.

We are driven by user centric methodology that empowers us to create visually stunning and highly intuitive design.

Our experts code with people in mind. Our development team is well equipped to identify the most suitable technical solutions for your company/brand.

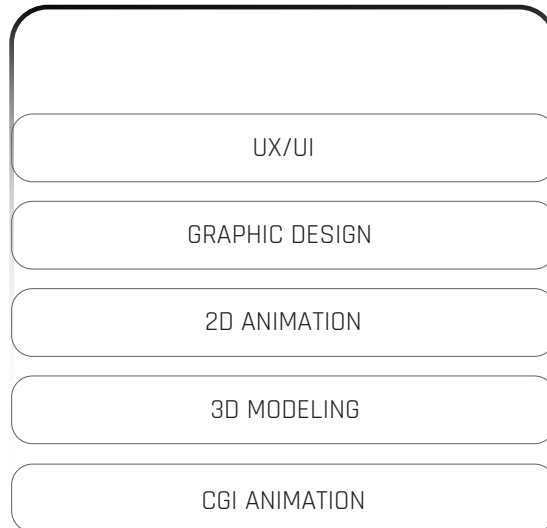

Let us help you take your business to new heights with our comprehensive digital marketing solutions.

WEB SOLUTIONS

We developed a ticketing app for tenants for our client, designed to streamline support requests for store renovations and permissions.

The app enables tenants to easily submit requests, track approvals, and communicate with mall management, ensuring a smooth and efficient process for obtaining necessary authorizations.

DATA BASE

FIRE BASE

The One Capital Web-Based Portal is designed to track and manage investments for all investors in One Capital Projects. It provides real-time insights into investment performance, valuation updates, and securely stores important documents, offering a comprehensive solution for streamlined investment management.
